Vol. 1998 No. 3 June 1998

North Dakota Chess Association

Dedicated to Chess and Education

Mike Sailer Wins the '98 Closed!

The 1998 North Dakota State Championship Chess Tournament was played at the Bismarck Doublewood Inn on May 30th through the 31st. The clear winner with a perfect 6-0 score was chess master Mike Sailer, from Fargo, ND.

Thirty seven players from around the state participated in this year's tournament. Look for the complete results in the pages of this newsletter.

This year's ND Closed was notable in several respects. Last year's Champion did not participate, a new six round format was used, and the annual business meeting was scheduled for a different time slot than has been tradition.

Last year's ND State Chess Champ, Peter Thompson did not return to defend his title this year. Peter and his family have moved to Indiana, making him ineligible to enter this year's tournament since he is no longer a resident of North Dakota. The loss of Peter Thompson to North Dakota chess is significant in that he was the highest rated player in the state at the time he left, and one of only two rated masters in our membership.

The 1998 ND Closed featured a six round, sudden death format. While in years past this tournament has had sudden death times controls and other years it has had six rounds (spread over three days), this is the first year that both have been used in the same tournament. Four rounds were played on Saturday the 30th (G/60, G/90, G/90, and G/2 hrs) and two rounds were played on Sunday the 31st (G/2 hrs and G/2 hrs).

The NDCA business meeting was held on Sunday morning, before the start of the fifth round of the tournament. Previously, this meeting has been held after the first round on Saturday morning. There were 22 members present at the business meeting this year.

NDCA Dues

NDCA dues are required of all chess players residing in North Dakota that play in USCF rated tournaments. Annual membership dues are $7 per year, or $5 for those under age 18.

Dues and material for the August, 1998 newsletter should be sent to:

Brian Thompson
1257 North 3rd Street
Fargo, ND 58102

Please remit by July 25th, 1998 to allow time for processing.

Chess Clubs

Club directors, please send details for your chess club to Brian Thompson for inclusion in the NDCA newsletter.

ChessNuts Chess Club meets every Friday night at the downtown Moorhead Subway from 8 pm to midnight. There are no fees or dues of any kind. Club ratings are generated based on results of G/15 results. For more info contact Brian Thompson at (701) 298-0602 or email: BrianEThompson@yahoo.com.

Tournament Schedule

Tournament organizers, please send details of upcoming tournaments to Brian Thompson for inclusion in the NDCA newsletter.

Governor's Cup - Sept. 11-13, 1998 at

Governor's Cup - Sept. 11-13, 1998 at the Convention Center, Sioux Falls, SD. 5-SS, 40/2, SD/1. Registration by mail or at the event, Fri., Sept. 11, 5-6:30 pm or Sat., Sept. 12, 7-7:30 am. EF: $35 in advance, or $45 if postmarked after Sept. 5. Prize fund of $8,500 guaranteed. For more information, contact Sioux Empire Chess Foundation, 2100 Slaten, Sioux Falls, SD 57103, (605) 338-9431 or e-mail: knudson@dakota.net

1999 ND Scholastic - May 1-2, 1999 at Mandan High School, Mandan. Details to follow in future newsletters.

1999 ND Closed - May 21-23, 1999 at the Doublewood Inn, Bismarck. Details to follow in future newsletters.

NDCA Business

The 1998 NDCA Business Meeting was held May 31 at the Doublewood Inn, in Bismarck. There were 22 members present. NDCA President John Allensworth called the meeting to order and made note of several improvements in the last couple of years in terms of how the organization conducts it's chess tournaments.

The addition of a computer and software to manage the pairing process in larger tournaments was mentioned first. In addition, specialized utilities have been developed that allow the tournament directors easier access to player information, speeding up the registration phase of the tournament.

John also pointed out the increased number of volunteers at the Scholastic and Closed tournaments. He specifically thanked the volunteers such as Doris Fischer, who are not active players but donate their time to help organize and execute these events.

New Business: Mike Sailer suggested that the NDCA consider letting border towns such as Moorhead, MN and East Grand Forks, MN participate in the ND Closed tournament. The idea is that residents of these towns participate in ND chess during the rest of the year, but have very little chance or desire to participate in the Minnesota state chess championship tournament.

Brian Thompson suggested that the NDCA consider changing the format of the state championship tournament to allow anyone to play, but let only residents of ND be eligible for state titles and trophies. The idea behind this suggestion was to open the tournament to more than a select group of non-residents, yet keep the title of State Champion within the ND borders.

After a lively discussion, it was decided that the newly elected officers were to study the issue and present alternative proposals to the membership with a recommendation for their consideration. Look for more details on this matter in the next NDCA newsletter!

The election of officers resulted in returning all of the serving officers to their respective posts. It is to be noted that all of the offices were uncontested, due to a lack of interested candidates for the positions. The officers for the 1998-1999 chess year are:

President: John Allensworth
Vice President: Brian Thompson
Secretary / Treasurer: Dale Sailer
Public Relations: Mike Sailer

State Representatives (assigned by the officers) will remain the same for the next chess year. If an NDCA member is interested in being listed as a State Rep, please contact an officer.

Dale Sailer reported that the NDCA had approximately $950.00 in the treasury before the 1998 ND Closed. He projected that after the Closed, there would be about $750.00 in the treasury. The membership in attendance voted to give $200.00 to Charles Haugtvedt, the 1998 ND High School Scholastic Champion. These funds are designated to help offset the cost of Charles' trip to the Denker Tournament of State Champions, held this year in Hawaii.

The last item of business was a proposal for the officers to consider the scheduling of the 1999 Closed and Business Meeting. This was suggested due to the low turn out for the business meeting. It was decided that the officers would discuss the scheduling options and make their recommendations for the consideration of the membership in an upcoming issue of the newsletter.

The meeting was adjourned. Members are encouraged to contact NDCA officers with their suggestions regarding any of the items of business discussed at this year's meeting.

Internet Chess: Featured Site

[Brian Thompson] In following issues, this column will feature an Internet chess site to explore. In this issue, that site is the Yahoo! games server. The address for the site is: **play.yahoo.com/** and it boasts free interactive game interfaces for chess, checkers, backgammon, and many other games. From this site, select "Chess" from the Board Games listing. If you are new to Yahoo! games, you'll need to invest about five minutes to register with the system and select a handle and password.

Once you've registered, you'll have the option of joining one of several "chess lounges". I suggest trying one of the Intermediate lounges until you've gotten the feel for the interface.

After entering a chess lounge, you'll have the option of joining a game table as a player, as an observer, or creating a table of your own. This is one of the more attractive features of this site. When you create a new chess table, you are designated the "host" of that table. As the host of a table, you may determine the clock settings and begin to invite other players to join your table. Also, if a player becomes unruly (rare), the host has the option of booting the offender from the table!

Another characteristic I like about this chess site is that your games can be either rated or unrated. Once a

rated game has begun, if a player leaves the table (is disconnected or quits), they have five minutes to return, or else their opponent has the option of forcing a resignation. This neatly avoids the problem of players quitting games to avoid losing rating points, a common occurrence on some other rated chess sites.

In order to play chess on Yahoo!, you'll need either **Netscape Communicator 4.xx** or **Microsoft Internet Explorer 4.xx**, both of which are available to download free of charge at various sites on the net.

This is a really great time to be a chess player! You can play a game of chess with opponents from all around the world, whenever you have a few spare minutes.

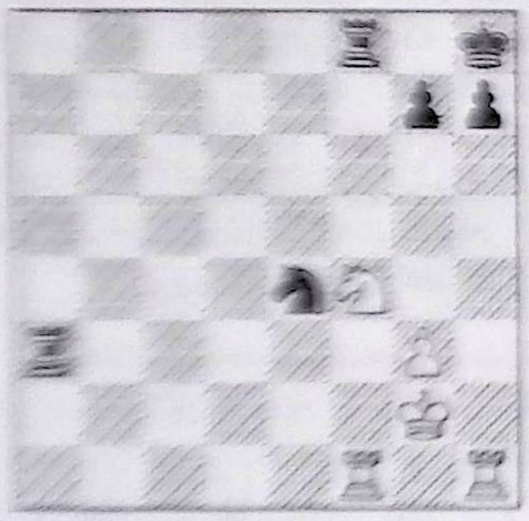
24...Bh3+! 25.White Resigns (0-1). A possible finish would have been: 25.Kxh3 Qf1+ 26.Kg3 Nh5+ 27.Kg4 f5++. While White's 25th move would not have been forced, a variation of the winning idea would have led to mate even if he declined the offered bishop.

Tactics Teasers

In the following positions, can you find the best move?

A) White to play, and mate in 2



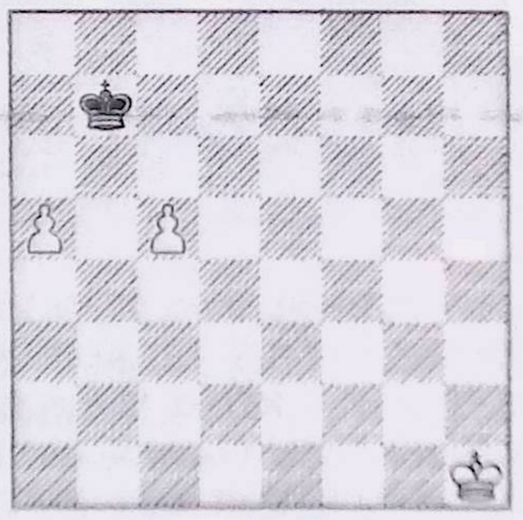
B) White to play, and mate in 2

C) White to play, and mate in 2

Answers to Tactics Teasers:
A) 1. hxg6+ Kg8 2. Rh8++
B) 1. Ng6+ Kg8 2. Rxf8++
C) 1. Rxg8+ Rxg8 2. Nf7++ or
1. Nf7+ Rxf7 2. Rxg8++

End Game Analysis

[Brian Thompson] When considering whether or not to simplify a game into an ending, you must understand the power of the remaining pieces in order to make the best decision. In the diagramed position, if the Black King can capture both of the White pawns, the game is a draw. However, if White can promote one of the pawns, he wins the game. Notice that neither of the pawns is protected and the White King can't get over to that side of the board before Black is able to threaten the pawns. With White to play, can he win? With Black to play, can he draw?



In this position, it doesn't matter which of the players has the move, White can win by force. If Black were to move first and attack the c pawn (**1...Kc6**), White would simply advance the a pawn (**2.a6**), and the c pawn would be immune (2...Kxc5 3.a7 Kb6 4.a8=Q and wins). Therefore, Black must retreat his King (**2...Kc7**). At this point, White must not advance either of the pawns, as he would surrender both of them to Black. (3.a7 Kb7 4.c6+ Kxa7 5.c7 Kb7 6.c8=Q+ Kxc8) Instead, the King must move towards the pawns, with the plan of escorting one of them to the eighth rank. The power of the two isolated pawns separated by a single open file is unique. An important feature of this position is that the pawns are on the same rank (or able to reach the same rank before being threatened by the opposing king. If the pawns were separated by two open files, they may not be able to hold out against a lone King, depending on how far advanced they were.

The following game illustrates how this idea can be used when entering an ending.

1998 ND Closed

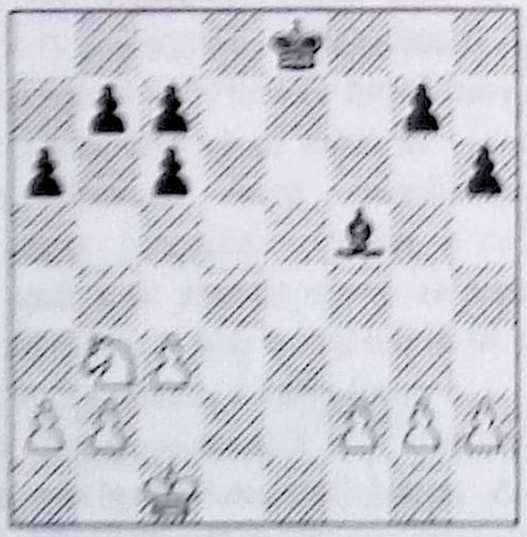
Seeing that after the exchange of rooks he can bring the pawns to the same rank, White knows that his pawns are safe from the Black King as long as his own King can contribute a tempo when needed. The game continued

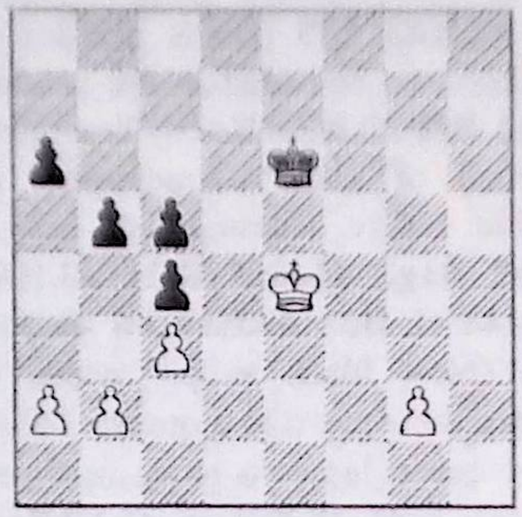
thematic as to the type of position that arises from the Exchange Variation of the Ruy Lopez: kingside pawn majority for White, queenside pawn majority (but with a doubled pawn) for Black. Many experienced players could perhaps just glance at the final position and tell what the opening had been!

97CA66 - Postal Tournament
March 1997 - May 1998
W: John Leitel (1888)
B: James Bickford (2323)
1.e4 e5 2.Nf3 Nc6 3.Bb5 a6 4.Bxc6 dc 5.d4 ed 6.Qxd4 Qxd4 7.Nxd4 Bd7 8.Be3 O-O-O 9.Nd2 Bc5 10.N2b3 Bb6 11.O-O-O Ne7 12.Rhe1 Rhe8 13.c3 h6 14.Ne2 hxe3+ 15.Nxe3 f5 16.ef Nxf5 17.Nxf5 Bxf5 18.Rxd8+ Kxd8 19.Rxe8+ Kxe8



My opponent was much higher rated, he was already getting the upper hand in our other game, wholesale exchanges have left a position that looks none too exciting. Despite all this I started getting one of those inexplicable feelings: "I'm going to win this game! I don't know quite how, but I'm going to

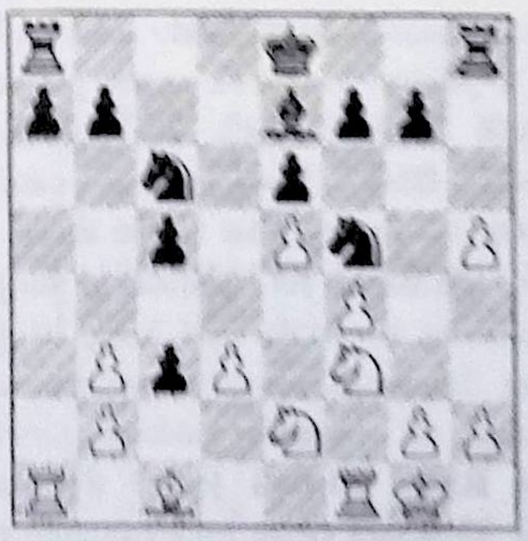
45.Kxf4 Kf6 46.Ke4 Ke6



47.g4 Black resigns. (1-0) One of those rare endings in which the winner is never material up at any time in the game! I soon would have been, though, as he's helpless against my outside passed pawn. The triumph of the kingside majority!

Mike's Advice Corner

1998 North Dakota Closed
May 31, 1998 - round 5
W: Ron Schauer (1965)
B: Mike Sailer (2215)
1.e4 c5 2.f4 d5 3.e5 (Ron has been playing this variation for many years and is pretty darn good at it. Although theory frowns upon the move, I think it is a fairly reasonable position for white.) **Nc6 4.Nf3 Nh6** (A useful waiting move allowing black to delay the development of the c8 bishop. It is still too early to determine whether f5 or g4 will be the better square.) **5.Nf3** *dislodging this knight. The one drawback is now it will be tougher for black to castle kingside due to the advanced pawn. The one drawback is now it will be tougher for black to castle kingside due to the advanced pawn.*) **11.Nf3 Qb6** (This is normally the best time to develop the queen. The queen now supports black's minor pieces. Black's next course of action is to find good squares for the rooks.) **12.c3 d4** (Preventing white from creating a central pawn chain. It also grabs space for blacks pieces and puts extra pressure on white's sensitive e3 square.) **13.Qb3** (I believe this move is a mistake. White's queen plays a far greater role in white's game than black. Black now turns a slightly better position into a near winning game.) **Qxb3!** (I believe this is a move many players wouldn't make due to the opening of white's rook file. However, upon closer examination, the rook file will be of little strategic importance in comparison of the open d file black will control.) **14.axb3 dxe3!**



(This move guarentees black an endgame advantage. Black holds the

double rooks on the d file to put pressure on white's center; 4) White has a fixed dark square pawn on e5. This will make any bishop endgame difficult to hold for white.) **18.bxc3 0–0 16.Ng3** (I don't like this move. White's game is too difficult to create additional weaknesses. White now has weaknesses on both sides of the board.) **Nxg3 17.hxg3 Rfd8 18.Rd1 f6?!** (At the time, I thought this move was a no-brainer, but after analyzing the move afterwards, I probably should have used more of my brain. Although this move will probably need to be played at some point, black still has many constructive moves to make. I should have just doubled rooks on the d file. The point of 18. ... f6 was to activate my bishop and disrupt white's pawn structure.) **19.Be3** (I believe Ron should have just played exf6 and try and take advantage of my isolated e pawn.) **fxe5 20.Nxe5 Nxe5 21.fxe5** (Now white has an isolated, fixed center pawn. Also, white is in the difficult position of not being able to trade rooks due to the probability that the bishop endgame is lost.) **Rd5 22.d4 exd4 23.Bxd4 a6 24.Kf2** (White needs to desparately activate his king to protect the weak center pawns.) **Rad8 25.Ke3 Be5 26.Ke4 Ba7 27.Rd3 Bb8** (Now white cannot regroup his bishop due to the threat of Rxe5.) **28.Rad1 Kf7** (Black is simply threatening to move his king to g4, hitting the weak kingside pawns, and creating an outside passed pawn.) **29.e4 R5d7 30.Be3 Rxd3 31.Rxd3 Rxd3 32.Kxd3** (Ron misevaluated the difficulty of holding the bishop endgame. I believe black now has a forced win. Black will be able to pawn by force.) **30.b3** (When you find yourself in a pawn down situation, the best thing to do is trade as many of the remaining pawns as possible in order to simplify the position.) **axb5 37.cxb5 Kg4 38.Kd3 Kf5** (Black decides to keep his king activated in the center.) **39.Be3 Bf2 40.Kc4 Ke4** (Eliminating as much of white's counterplay as possible before winning the pawn.) **41.Bb2 Bxg3 42.Kc5 Bf2+ 43.Kd6 Kf5 44.Bc1 Bd4 45.Kc7 b6 46.Ba3 Kxe5** (Now black simply needs to advance the e pawn to a queen. White cannot queen his own pawn in time.) **47.Bd6+ Kd5 48.Be7 e5 49.Kb7 e4 50.Bd8 e3 51.Bxb6 Bxb6 52.Kxb6 e2 53.Ka7 e1Q 54.b6 Kc6 (0–1)**

Post Mortem

[Brian Thompson] Welcome to the new look of the NDCA newsletter! In future newsletters, the Post Mortem column will feature letters to the editor, opinions and ideas submitted by the NDCA membership. Please feel free to send your input to me by regular mail or email. In order to be published, all correspondence must include the member's name. Material will be included as space allows, and may be edited to fit the space that is available.

I would like to thank all of the contributors to this edition of the NDCA newsletter, including my son David who spent several hours re-mastering the NDCA logo displayed in the banner of the newsletter.

Finally, please check your membership expiration date on your newsletter mailing label! Don't miss the next issue by letting your NDCA membership expire!
